WORK EXPERIENCE

TekiArtz

Freelance Developer at Tekiartz | November 2023-present

Job responsibilities:

- Designed and developed responsive and user-friendly websites as a Frontend Developer.
- Stayed updated with the latest web development trends and applied best practices to improve project outcomes.

PROJECTS

1. Uber-Clone | |

Google Cloud API | Node.js | Authentication | GSAP | React

- Built an advanced ride-hailing application with real-time features using Node.js, Express.js, and React.
- Integrated Google Cloud API for live map services and navigation, enhancing user experience.

2. Tekiartz.com | |

React | Aceternity UI

- Integrated Framer Motion to implement appealing animations and transitions, improving visual aesthetics of the platform.
- Ensured full responsiveness of the web solution using AceTrinity UI, optimizing performance across various devices.

3. AI-Powered Code Reviewer | |

React | Node.js | Express.js | MongoDB | Responsive Web Design

- Collaborated with designers to develop a responsive and visually appealing UI using React.js, offering a dark theme and support for both desktop and mobile.
- Designed and implemented efficient server-side APIs using Node.js and Express.js to integrate with Google's Gemini AI API for code analysis.
