Robertsonpet, Karanataka

TECHNICAL SKILLS:

React | Node.js | MongoDB | Express | Three.js | AceternityUI | Framer-motion | JavaScript |

Tailwindcss

SOFT SKILLS:

Creativity | Attention to Detail | Teamwork | Effective Communication

WORK EXPERIENCE:

TekiArtz
Freelance Developer at Tekiartz   November 2023-present

- As a Frontend Developer at TekiArtz, I have successfully designed and developed responsive, interactive, and user-friendly websites. My role demands close collaboration with designers and other developers to meet project requirements effectively.

PROJECTS:

Tata-Clip Clone   🌐   ⊙

- Collaborated with designers to develop a seamless and responsive e-commerce web application using React and Tailwind CSS.
- Ensured seamless integration between frontend and backend components through well-structured RESTful APIs.

Tech Stack:

React | Tailwind CSS | RESTful APIs | Responsive Web Design | Node.js | Express.js | MongoDB

Uber-Clone   🌐   ⊙

- Created a full-stack ride-hailing application using Node.js and React, simulating the core Uber functionalities.
- Integrated real-time map services and accurate navigation with Google Cloud API.

Tech Stack:

Google Cloud API | Node.js | Authentication | GSAP | React

Tekiartz.com   🌐   ⊙

- Collaborated with designers to implement engaging and interactive web solutions using React.js and AceTrinity UI.
- Conducted thorough testing and debugging to ensure high reliability and stability of the TekiArtz platform.

Tech Stack:

React | Aceternity UI

CERTIFICATIONS:

Frontend Developer (React) Certificate   -   HackerRank
React (Basic) Certificate   -   HackerRank
JavaScript (Intermediate) Certificate   -   HackerRank

ACHIEVEMENTS:

Certificate of Appreciation   PrepLeaf by Masai
